Subject: Prepare for Your Session (Required)

Body:

Hey,

Before your session, I need you to go through this quick training so we can make the most of your time in the studio.

 foundationxacademy.org/artist-portal

This will show you:

- How to come prepared
- How to record better vocals
- How to move faster in the session
- What engineers expect from you

Most artists waste a lot of time figuring things out during the session — this helps you avoid that and get better results.

Please complete this before your session.

Let me know once you're done.
